RETAIL SCREEN PRINTING PRICE GUIDE 2010

ARTWORK:

Before your design goes to print, a graphic designer must create your artwork in vector format. Most orders include one design at no charge with minor modifications when supplied with the proper file format. Major changes to a design after artwork has been submitted will require artwork charges. Artwork is charged at \$50 per hour. Generally, artwork is not started until a complete order is placed including sizes, color, and number of apparel items to be screen-printed. If a customer requests artwork prior to placing an order, a 50% artwork deposit will be required. You can avoid charges for artwork by providing vector artwork in .ai or .eps file format.

OWNERSHIP OF ARTWORK AND DIGITIZED FILES:

While you own the right to control the use of your logo. SKC Industries retains ownership of all electronic files used to create your logo. We do not release these files to customers under any circumstances. We will release copies of finished designs in .jpg, .pdf or printed format.

SCREEN CHARGES (PER COLOR):

New Art/Screen \$20
Reset Previously Used Screen \$10

SPECIAL CHARGES:

Flash Cure (per color) \$.20
Color Change (same design) \$10
Ink Mixing to match PMS Colors \$20
Mesh Athletic Garments add 25%
Oversized Prints add 25%
Nylon Garments (jackets, bags) add 25%
